**Subject:** RE: 1BP

Okay ... thanks. I haven't heard anything else about it – so maybe they moved on? We were supposed to get 1BP for Agency review this week (scheduled to start on Friday) – but we haven't heard anything else about that either!!

Thanks again –  
Belinda

**Subject:** RE: 1BP

Oh this question! I thought Paul Schlosser had responded to it, so I did not follow up any further but I see I was supposed to circle back. Sorry! I just saw Andrew's recent email. It's a complicated question; I don't have an answer yet.

**Subject:** 1BP

Sorry!! This is the 1BP request ... ? I'm not on the email chain so I'm not sure what other discussions may have happened!

Thanks –  
Belinda

**Subject:** RE: formaldehyde assessment

I am out until Tuesday after today, so that is fine. I won't be able to get back to her today.

Thanks!

Andrew

I will not be able to get to this until Tuesday—would that work or do you want a response earlier. I am out tomorrow.

I don't recall what we said about this in formaldehyde.

I'll share some ideas, but you may already know all of this?

Maybe one breaks the question into parts:

## Ex. 5 Deliberative Process (DP)

Let me know, was this at all useful (and, no apologies needed if the answer is "No").

David

Do you remember what we decided on this, or how this is addressed in the RfC guidance (I remember something about POE effects)? I think one primary difference is that their chemical seems to be distributed in blood, unlike HCHO.
